

IMPIANTI AUTOMATICI PER MANUFATTI IN CALCESTRUZZO

COMPANY PROFILE

FORM IMPIANTI Spa manufactures high-technology machines designed to produce concrete blocks , paving, bricks and supplies complete turnkey plants for the manufacture of concrete vibrated products .

The company was founded around 40 years ago, in 1970. Its headquarter and production unit is located in Poggibonsi , not far from Florence, in the center of Italy .

FORM IMPIANTI Spa engineers and develops internally its own machines making use of the most updated technical design methods .

The components incorporated, when not built in- house , are the highest quality standard and selected from the best suppliers worldwide.

The entire process is rigorously controlled from our technicians including the important final trial before the shipment.

A skilled and long time experienced technical staff carries out researches aimed to improve the machines to establish our market leading position.

Today, FORM IMPIANTI Spa has more than 500 machines installed and working worldwide.

MISSION

FORM IMPIANTI focus is to manufacture flexible high quality machines that can be both effective and long lasting to obtain the maximum customer satisfaction.

Moreover, FORM IMPIANTI mission is improve and offer to its large number of clients the most updated technology.

Consequently, the machine department is the heart of our work where every single stage is followed step by step by scrupulous controls: from the smallest to the most important component.

FORM IMPIANTI manufacturing vision focuses on the intensive usage of accurate mechanical processes because we believe they have significant effects upon the final quality.

THE PRODUCTION

Operating worldwide , FORM IMPIANTI has acquired an extensive experience upon the widest range of concrete products that can be manufactured with our automatic stationary plants.

This products can be produced with standard or alternatively special / customized machines .

Some standard products are:

- Single and double layer self-locking pavings

- Single and double layer kerbs

- Hollow blocks

- Hollow floor blocks and chimney flues

- Splitted blocks

Some examples of special products are:

- Counterweights for domestic washing machines

- Fireplaces and barbecues

- Elements for brick kitchens

- Recovered moulding sands

AFTER SALES SERVICE

FORM IMPIANTI strongly believes the relation with the customer is a sort of mutual partnership. For this reason, we are very attentive about the after sale service.

The company is organized with :

- A staff of skilled and well trained technicians

- A well-stocked warehouse

- An efficient spare parts department

All these efforts are aimed to guarantee our customers a prompt and rapid service all over the world.
